Road Vehicle Standards legislation: A new era for road vehicle regulation in Australia started on 1 July 2021 when the Road Vehicle Standards Act 2018 (RVSA) replaced the Motor Vehicle Standards Act 1989 (MVSA). The operational aspects of the RVSA are contained in the Road Vehicle Standards Rules 2019 (the Rules). The RVSA, the Rules and other related legislation are …

Austroads has released the Guide to Pavement Technology, Part 2: Pavement Structural Design and all road agencies across Australasia have agreed to adopt the Austroads guides to provide a level of consistency and harmonisation across all jurisdictions. This agreement means that the new Austroads...

On 7 December 2019, the new Austroads Guide to Road Design Part 6: Paths for Walking and Cycling (2019) was released. The new guide has been developed to provide the latest information on planning, designing and constructing footpaths and cycleways that are safe and accessible, and that promote physical activity and healthy lifestyles. The guide includes new content on topics such as urban design, landscape architecture, and accessibility, and it updates the information on materials and construction methods. The guide is intended for use by road designers, planners, and other professionals involved in the design and construction of paths and cycleways. The guide is available on the Austroads website.
